Got it!

on the festival website www.festivalofsenses.com highlight 7om's unique melodies of music that will be performed throughout his live performance.

When 7om was seriously ill of chronic conditions, he used music as a way to activate his self-healing power. Music helped him bypassing the mental barriers that avoid self-healing. His story is a great example of the unique power of music. His music addresses chakras, nerves and the body's energy field to ultimately support listeners in lowering stress, and calming the mind.

Celebrity guests expected at the premiere of "Walk of Life - The Healing Experience of Music" include the Mayor of Pasadena, Clay Drayton, songwriter and arranger on Diana Ross's certified gold record and the Consul General of Austria.
